

13th Consecutive Year – 5 Star Facility

In December 2008, the Centers for Medicare & Medicaid Services (CMS), the federal agency that regulates nursing homes, created the 5-Star Quality Rating System to help consumers, residents and family members make decisions about which nursing home to choose. CMS rates each of the over 15,000 nursing homes in the U.S. with a rating between 1 and 5. Nursing homes with 5 stars are considered to have much above average quality and those with 1 star have much below average quality.

The rating system has 3 sections, each with its own rating, that determine a nursing home's rating:

- Results of annual surveys (number, scope and severity of deficiencies);
- Staffing levels and staff turnover; and
- Performance of 15 quality measures

All nursing homes' ratings are found on the Nursing Home Care Compare website: medicare.gov/care-compare.

Hatton Prairie Village has consistently received 5-Star ratings in each of three categories, plus an overall 5-Star rating, for 13 consecutive years. If you are considering a nursing home, we hope you consider Hatton Prairie Village, a nationally ranked facility of excellence providing superior care and services.
